Quality Brand electric System like Delta, Schneider PLC control system be with Delta Brand Made in Taiwan with Reliable quality.

It is adopted with PLC controller; Main motor is equipped with variable frequency speed regulation; touch screen man-machine interface. Easy for parameters setting & operating. Chinese and English languages (optional)

Failure Detecting Sensor

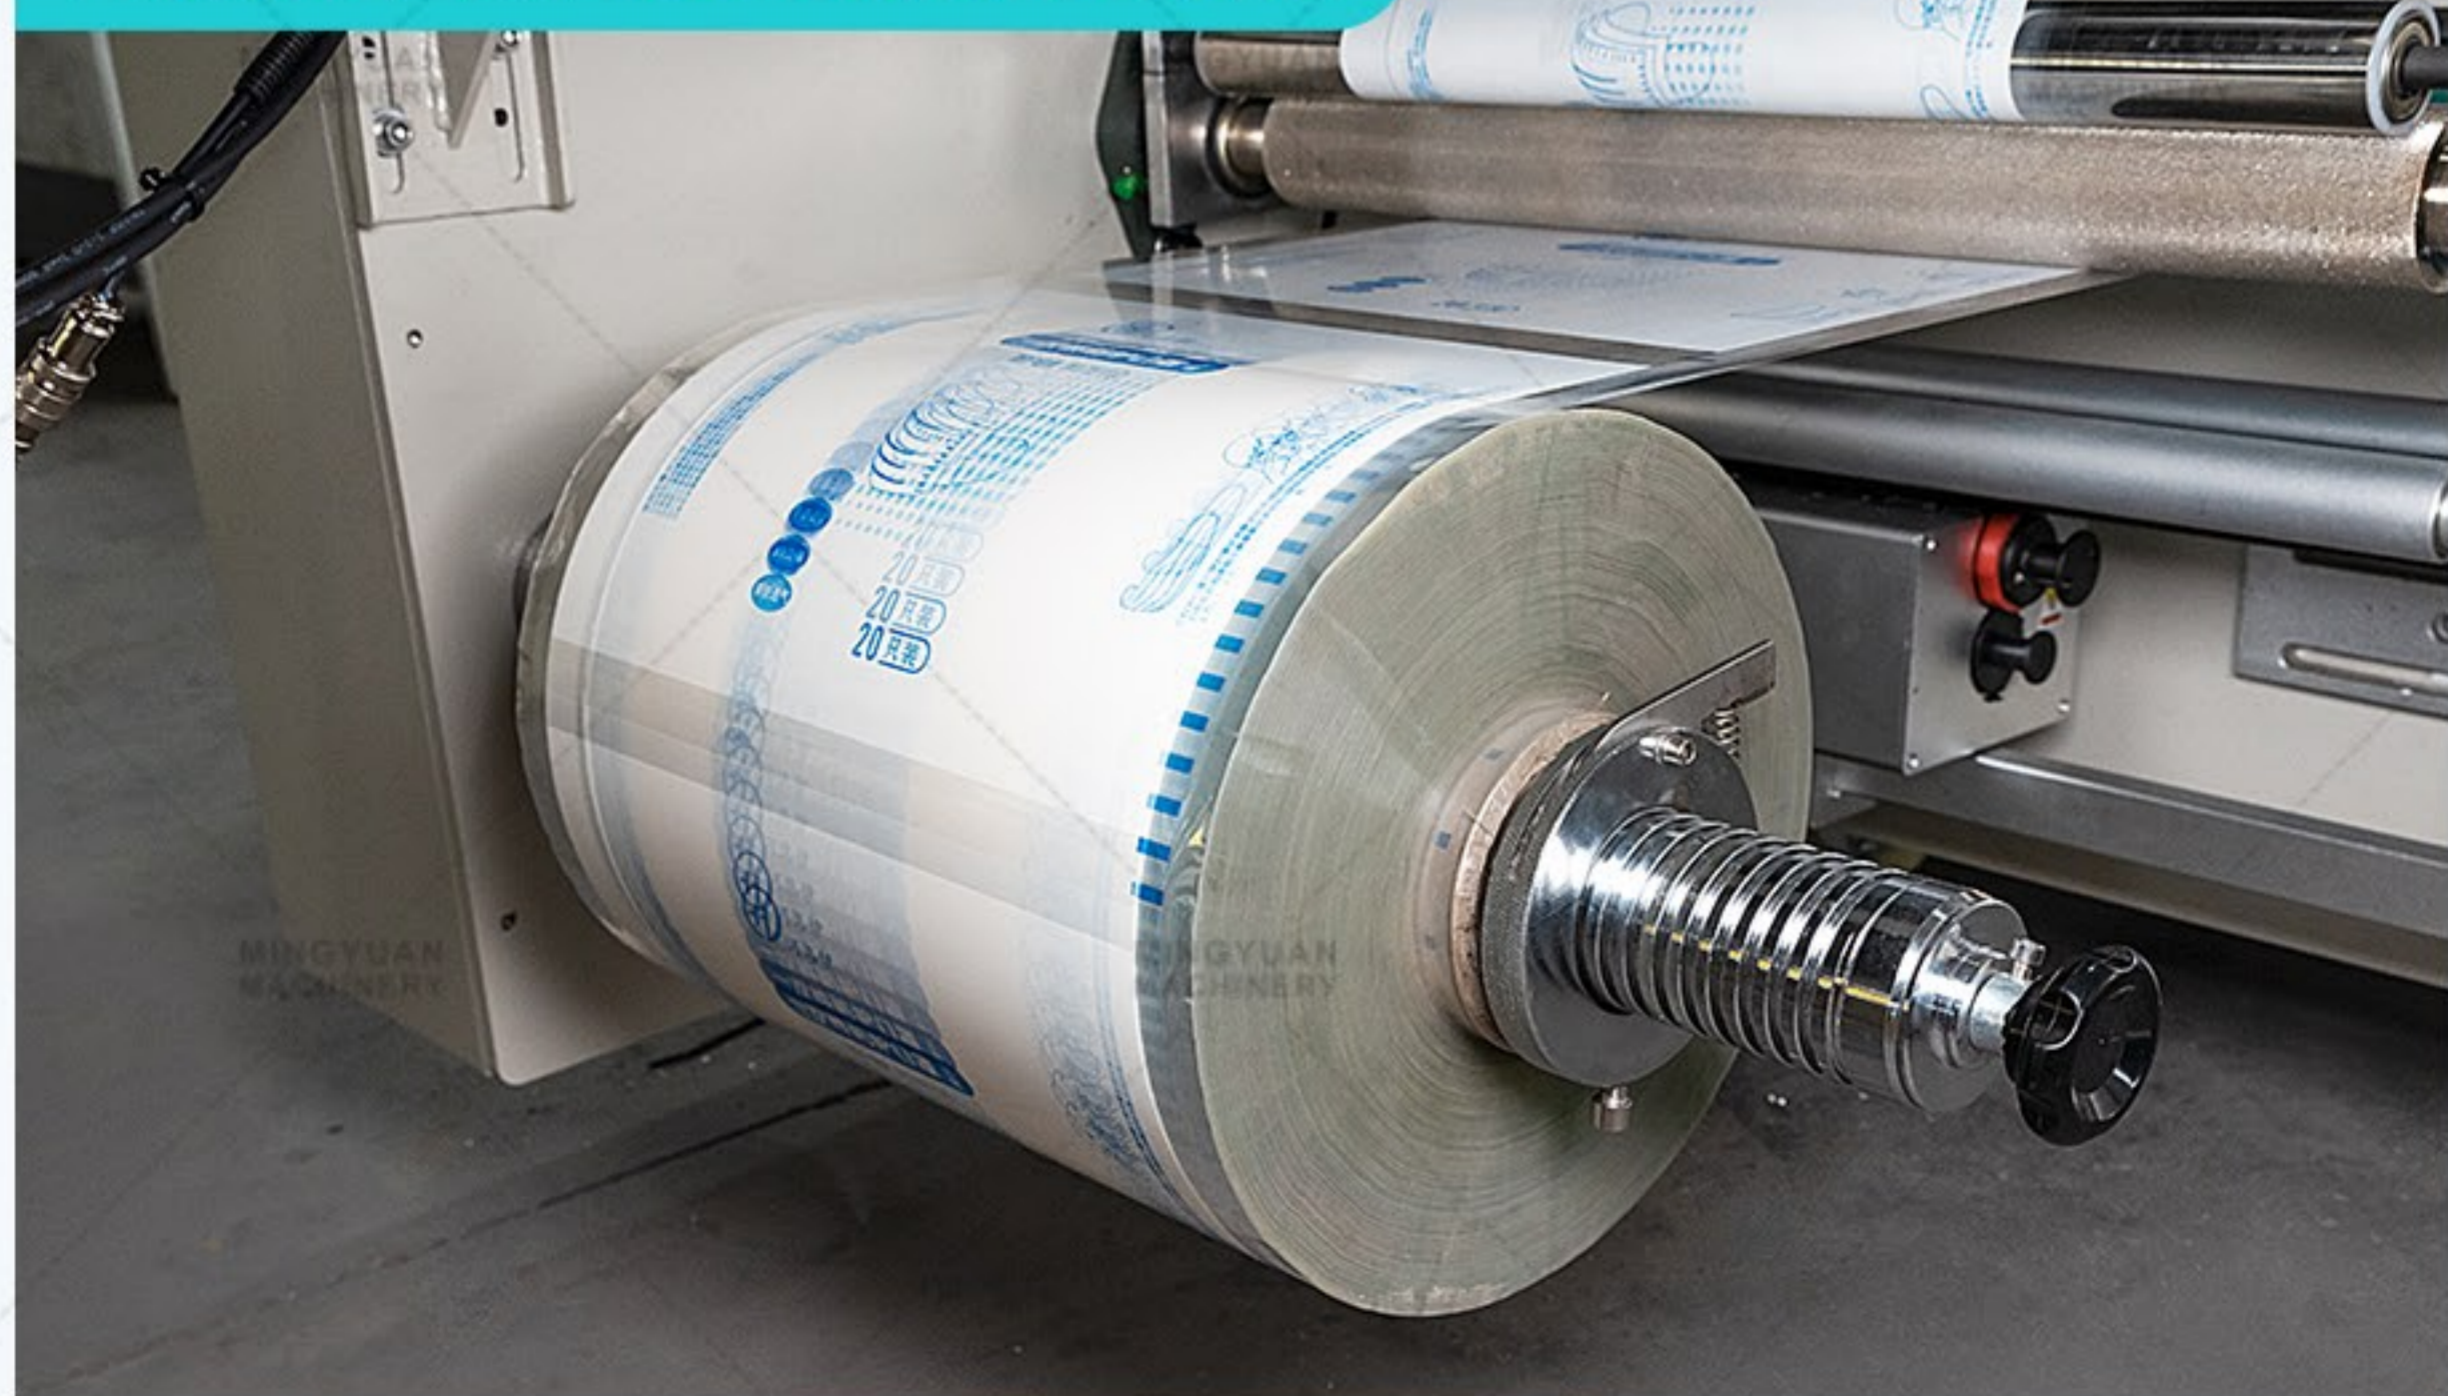

The machine will stop automatically if the failure detecting Sensors detect the packing film is run out, it can reduce the machine runs without load, and improve the operation safety.

Color Mark Tracking Sensor

High sensitivity optical electric color mark tracking AND digital input cut position which makes the sealing and cutting more accurate.

Plastic Film Roll Rack Device

Coordinating the film pulling process with multi-Linkage roll film shaft, adapt to more plastic film materials, film rolling process is more smoothly.

Selling Points

07

304 Stainless Steel Conveyer Platform

It can easily transfer different products to the bag former and meet food grade packaging requirements.

Bag Former

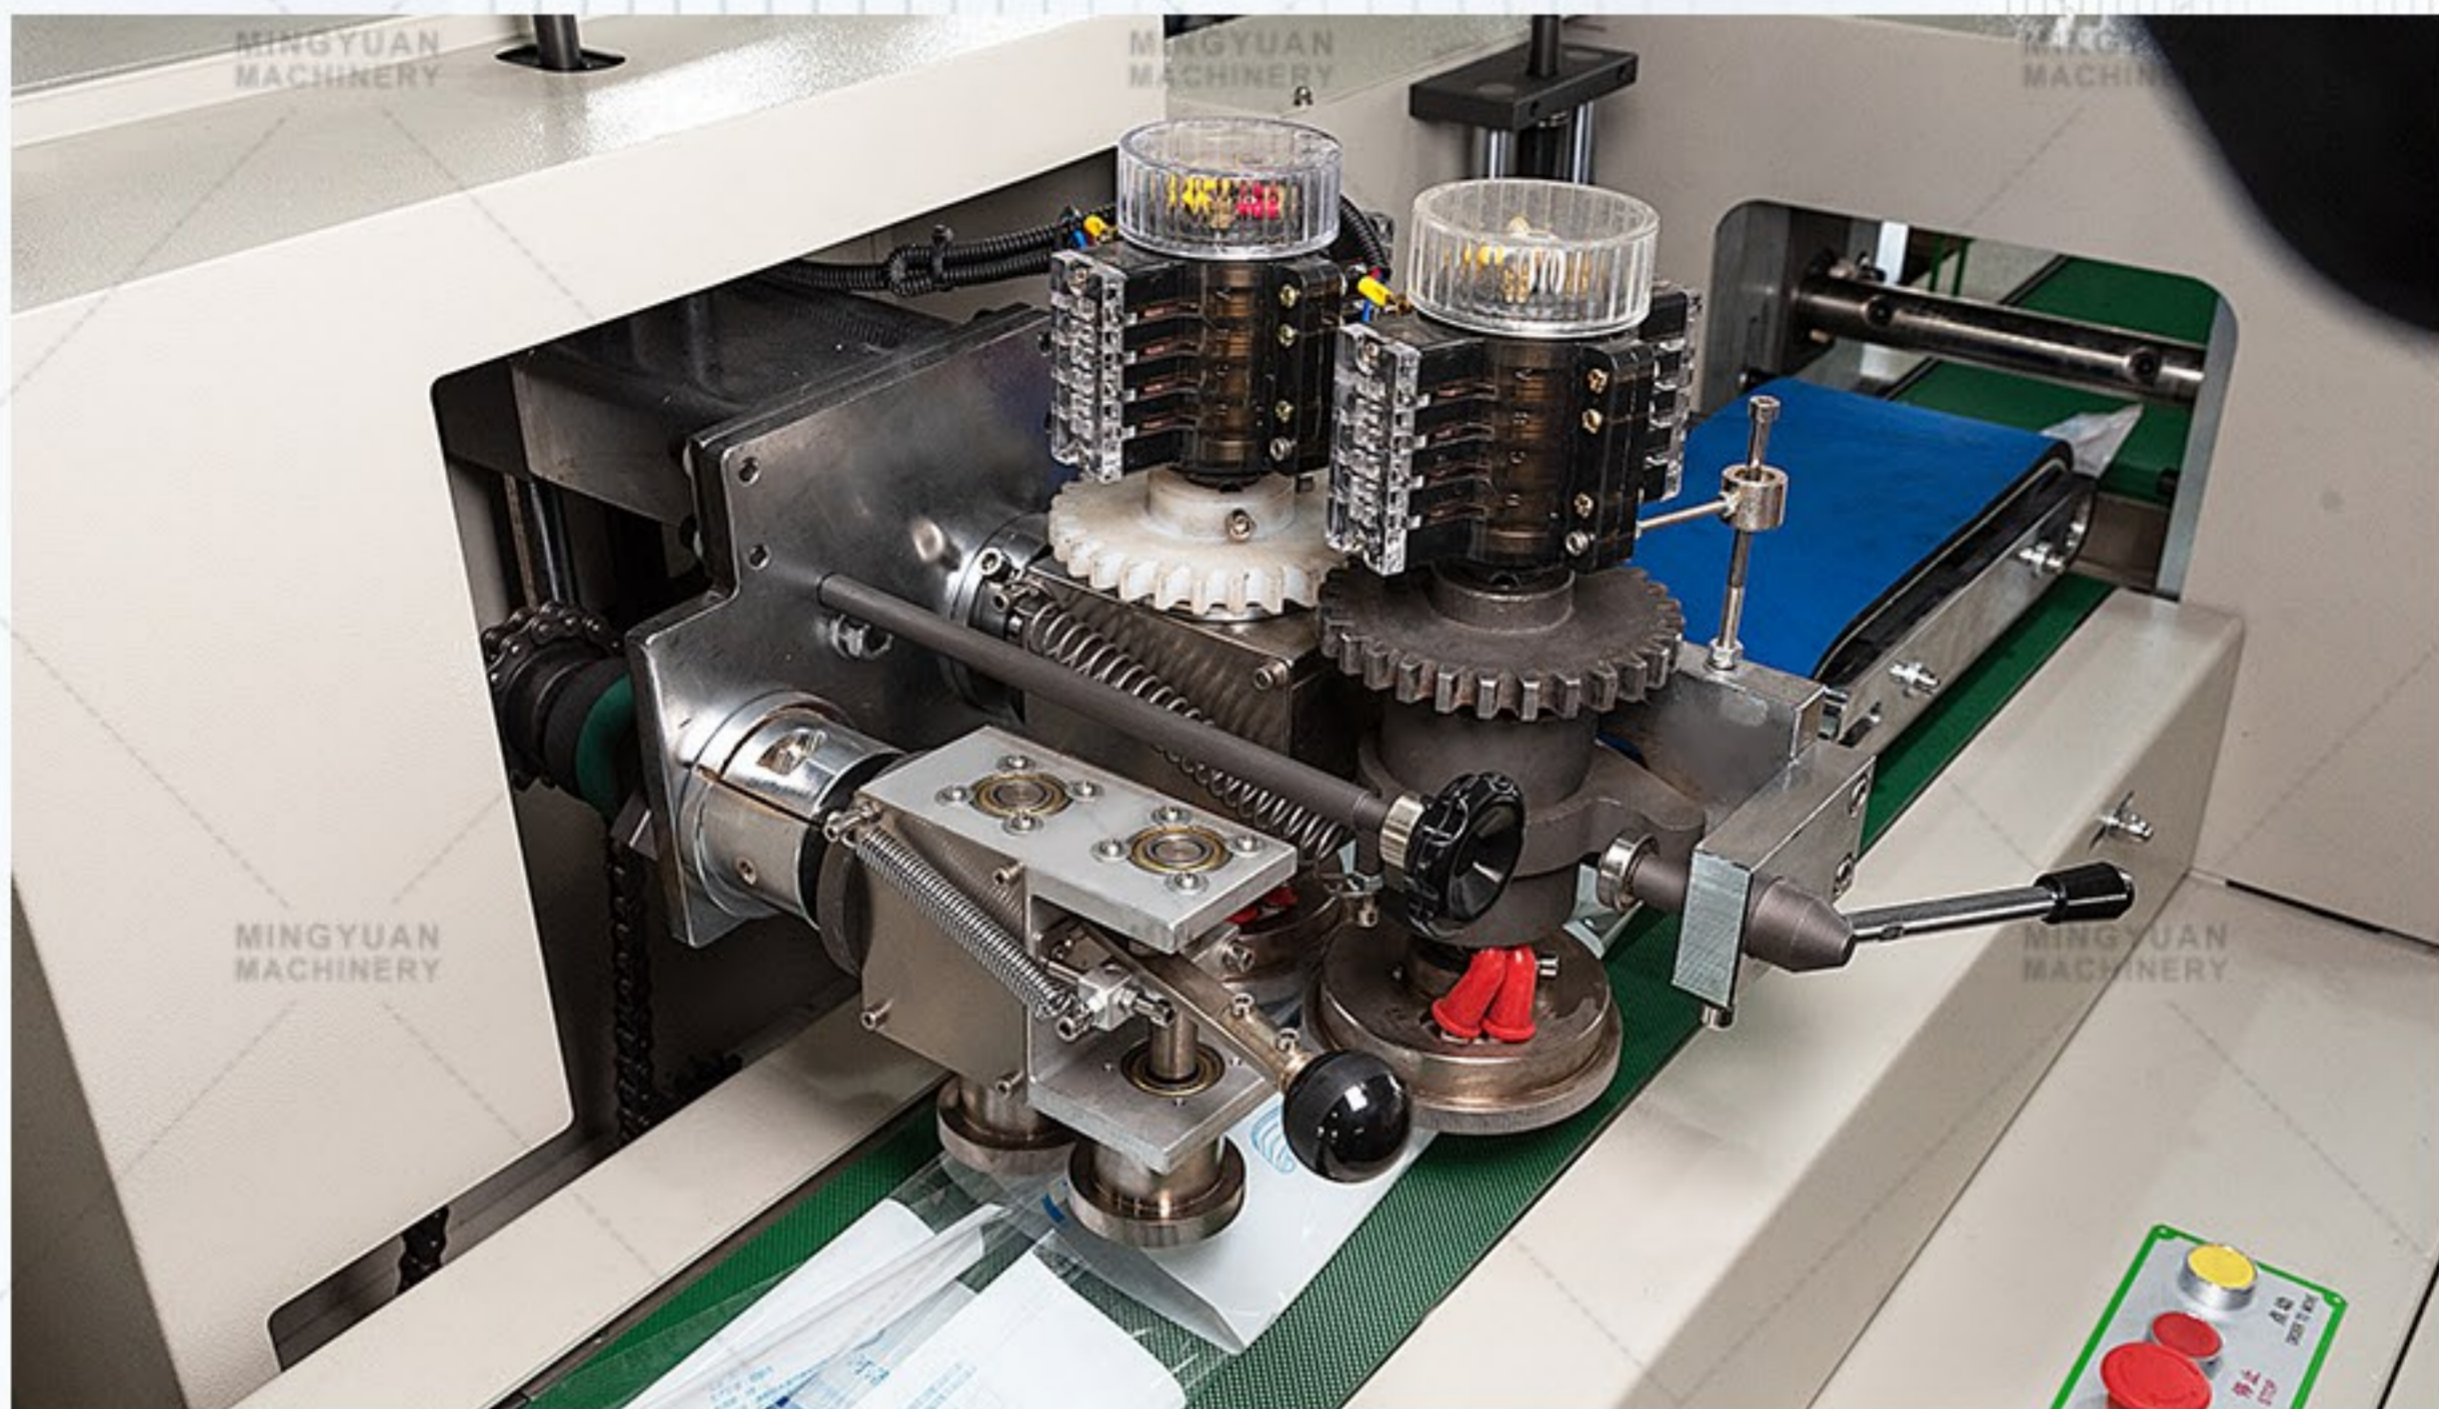

Bag former can let film covered the goods easily. And it can replaced the part to adjust the width as what you need.

Ruian Mingyuan Machinery Co., Ltd

Middle Sealing Unit

08

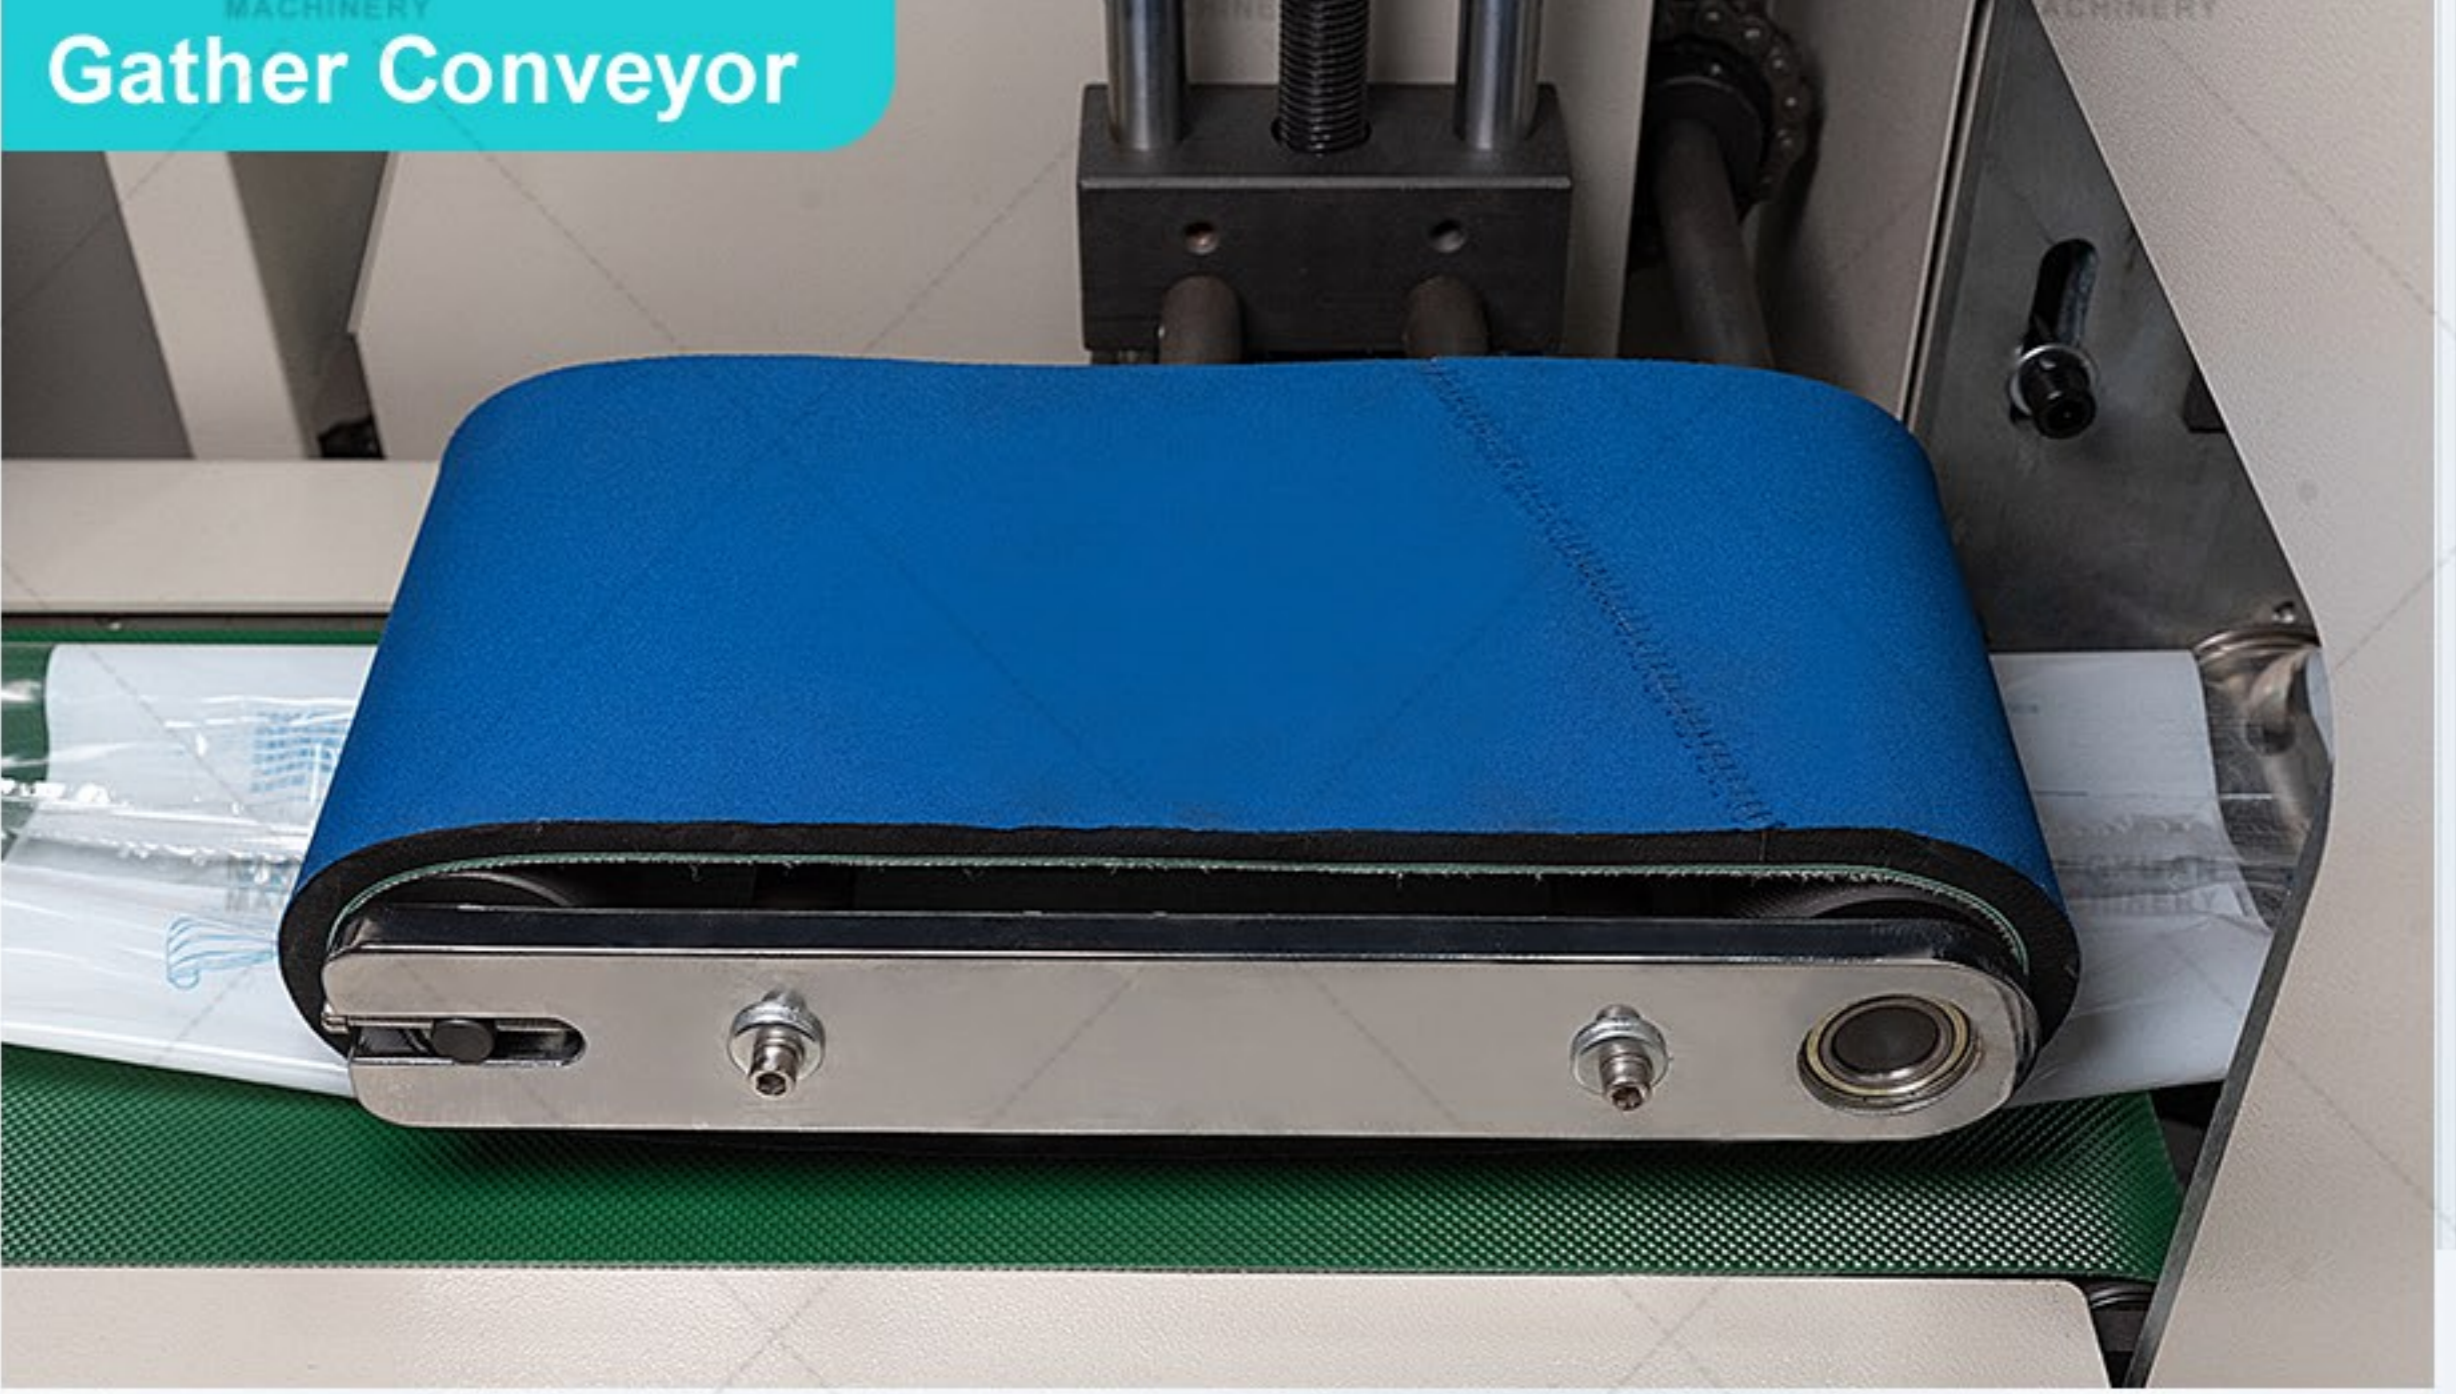

The roll film is pre-packaged through the heat-sealed area. The two rollers are called the film-sealing wheel, which is mainly used for arranging the bag. The middle part is the heating wheel. The material is pure copper. The heat sealing speed is fast and the effect is good.

Selling Points

09

Gather Conveyor

Keep the effect of pre-packed after the row of bags, not let the packaging film because of tension expansion, so that the goods can be packed more closely.

Print Control Panel

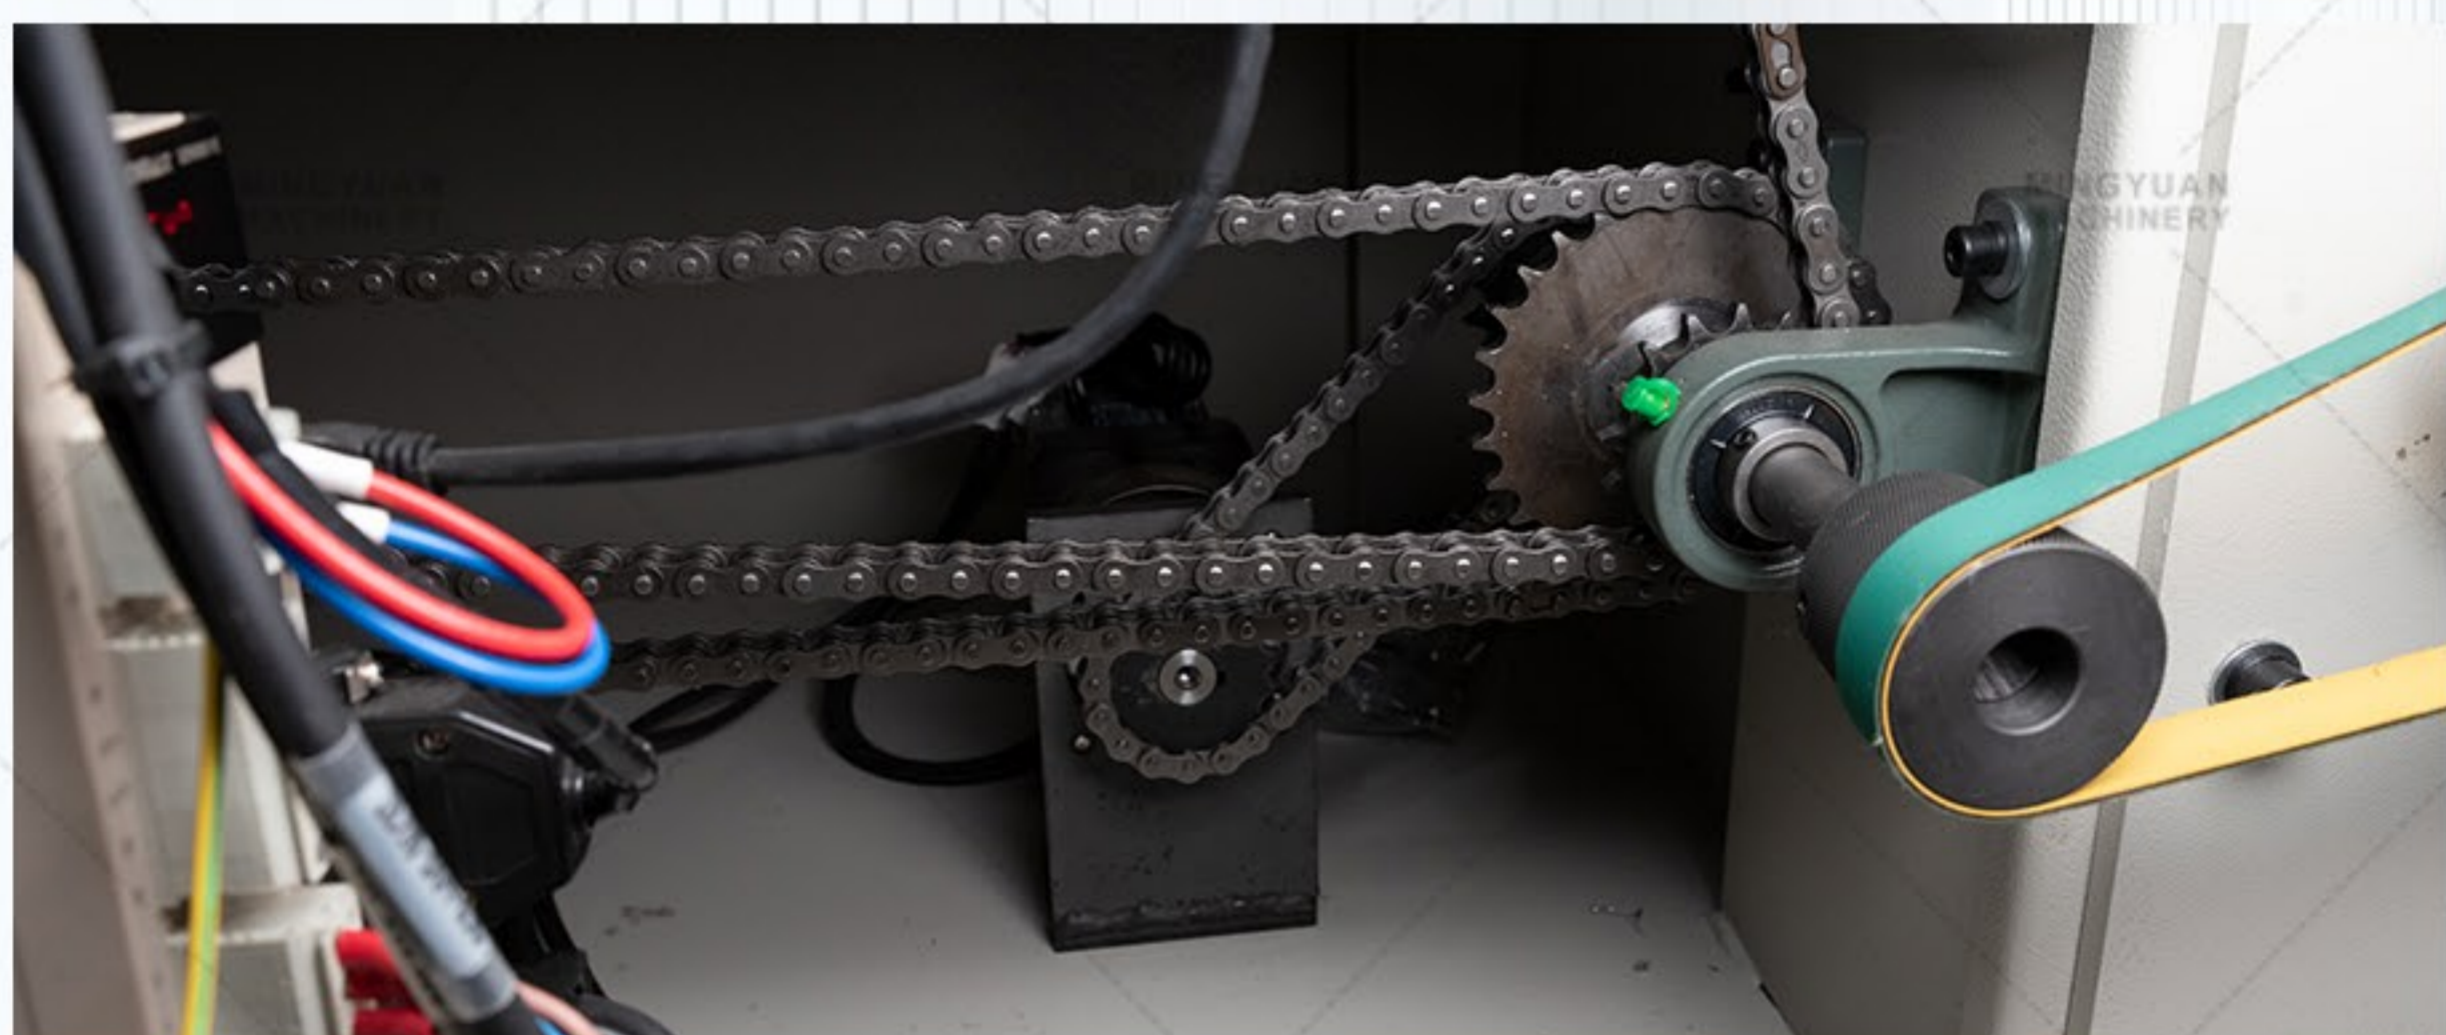

Display preset temperature and current temperature; Adjust the printing temperature; Only close the printing function or close the entire printing module; Fine tune the print position. Make the printing process smarter.

Ruian Mingyuan Machinery Co., Ltd

Selling Points

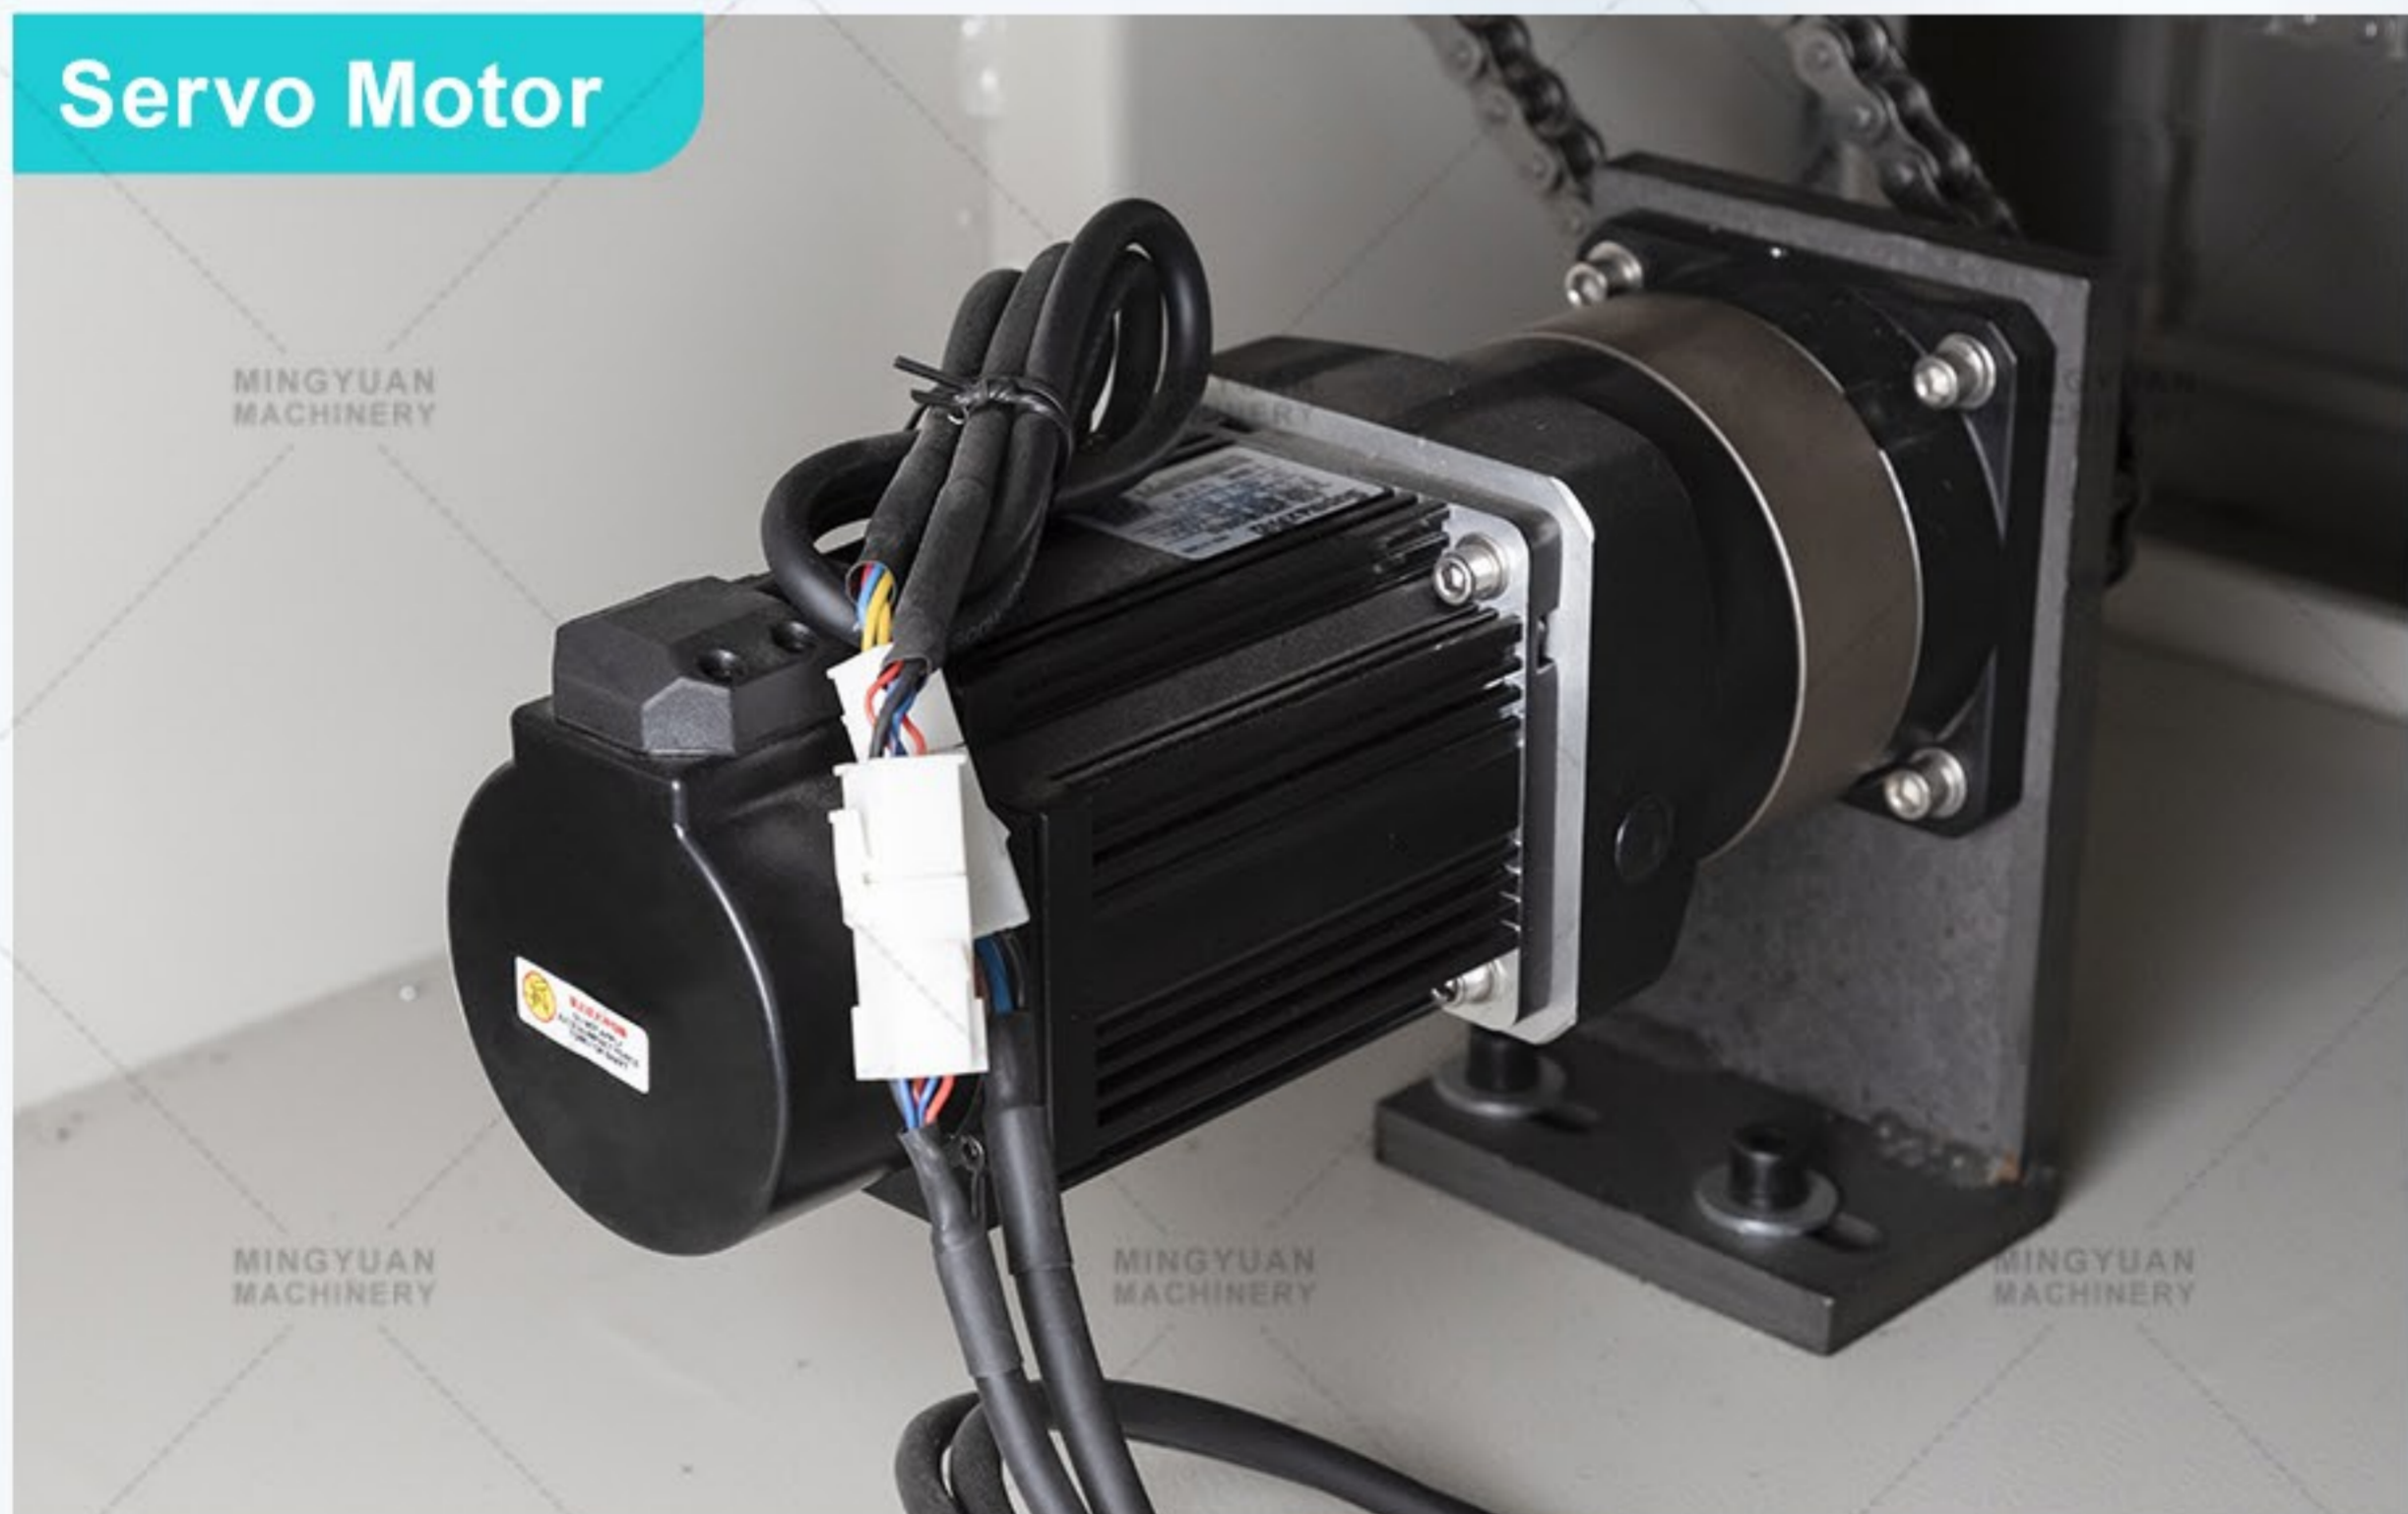

10

Servo and Chain Driving System

The chain drive shaft is tightened to make the transmission silky; It can be connected by multiple rotating shafts, making the structure more simple.

Servo Motor

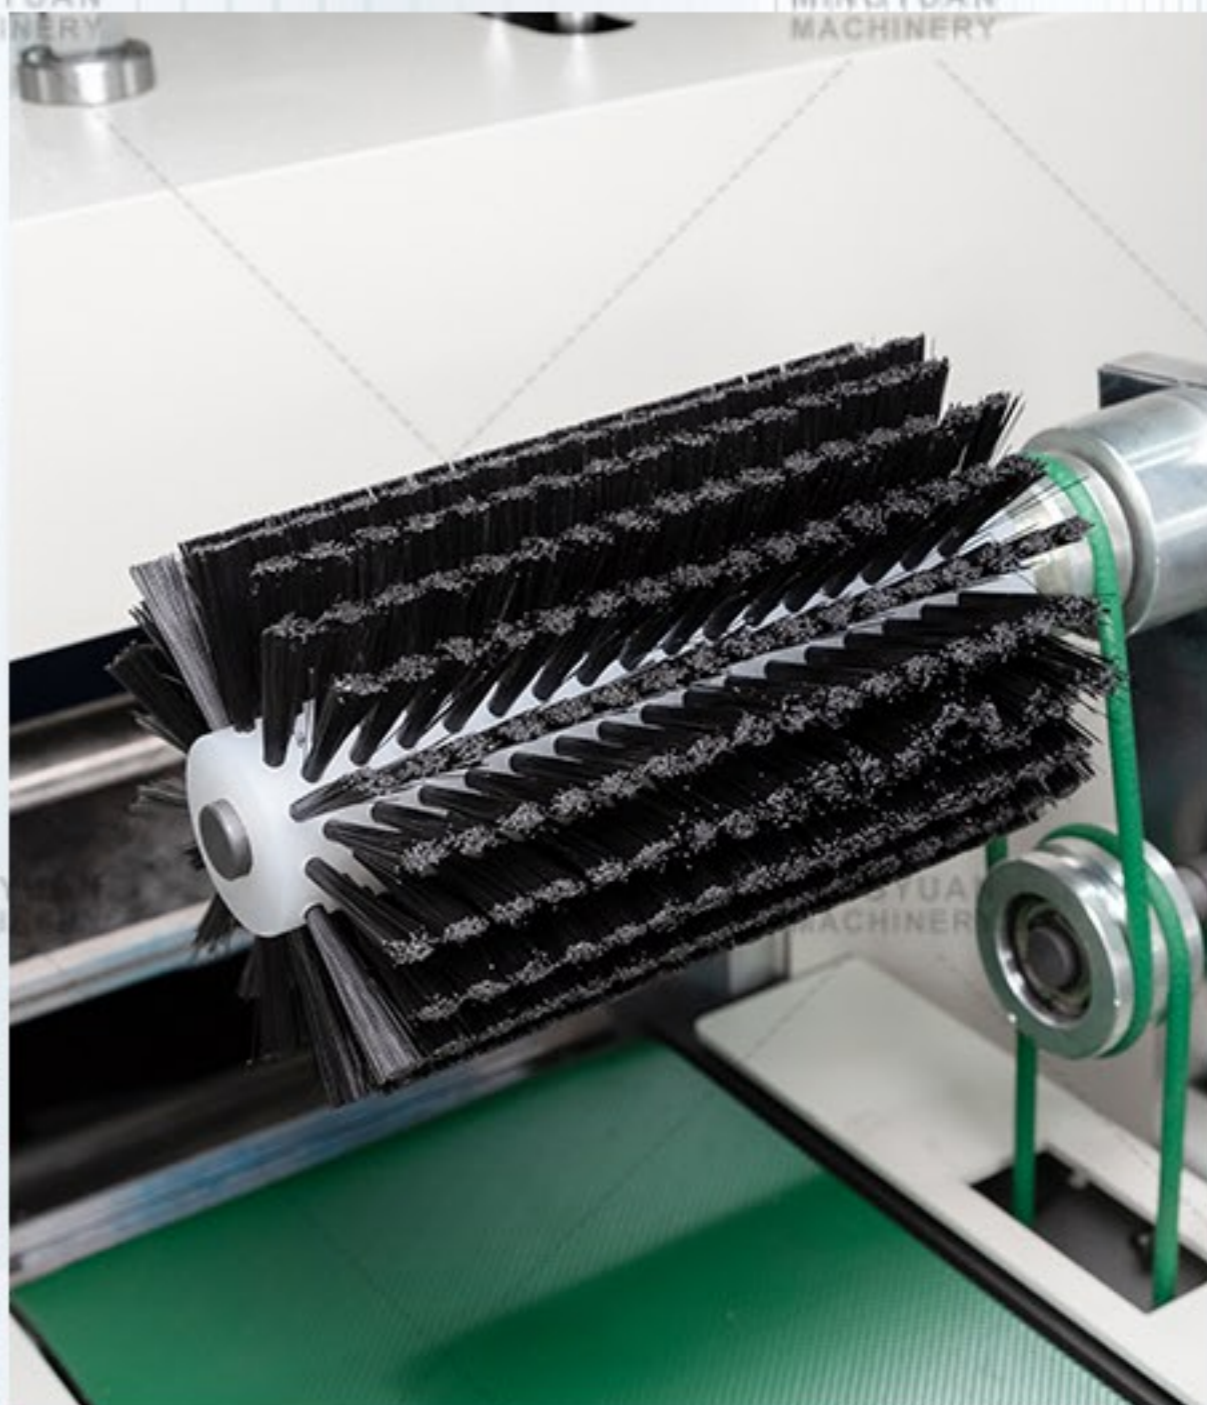

The servo motor can adjust the speed of the main motor to make the machine run more smoothly.

Machine details

11

Cutter&Brush Device

Durable Cutter : without sticking knife or wasting film.Outlet(Brush to ensure orderly product discharge)

Conveyor

The finished product delivery device can send the finished product to the place you want to send, easy to collect.

下午3:20 ✓✓

Hi Andy,
Thanks for listening.
In fact, you are fantastic. I will never change suppliers ...

 **Reliable Quality**

Ok, you, your Company is so much cooperative. I always remember your company.

下午2:49

 **Excellent Service**

Thank you.

下午2:50 ✓✓

Ok, Some one call me from Dhaka to know about machine. I tell him my experience.

下午3:02

de the production line will be fine we will buy you 5 more machines

 **Trustworthy**

dont worry, we have more than 12years exprience in manufacture and export

07:56 ✓✓

It will be a pleasure collaborate with you company ASAP

下午4:21

 **Pleasure Cooperation**

. It is nice to cooperate
